**U11** Need for immunization against COVID-19**U11.9** Need for immunization against COVID-19, unspecified

**Note:** This code should not be used for international comparison or for primary mortality coding. This optional code is intended to be used when a person who may or may not be sick encounters health services for the specific purpose of receiving a COVID-19 vaccine.

Prophylactic COVID-19 vaccination

**Excl.:** immunization not carried out ([Z28.-](#))

**U12** COVID-19 vaccines causing adverse effects in therapeutic use**U12.9** COVID-19 vaccines causing adverse effects in therapeutic use, unspecified

**Note:** This code is to be used as an external cause code (i.e. as a sub category under Y59, "Other and unspecified vaccines and biological substances"). In addition to this, a code from another chapter of the classification should be used indicating the nature of the adverse effect.

Correct administration of COVID-19 vaccine in prophylactic therapeutic use as the cause of any adverse effect.

**U13** Emergency use of U13

**Note:** Codes U00-U49 are to be used by WHO for the provisional assignment of new diseases of uncertain etiology. In emergency situations codes are not always accessible in electronic systems. The specification of category U13 in the way it is done here will make sure this category and the subcategories are available in every electronic system at any time and that they can be used upon instruction by WHO, immediately.

**U13.9** Emergency use of U13.9**U14** Emergency use of U14

**Note:** Codes U00-U49 are to be used by WHO for the provisional assignment of new diseases of uncertain etiology. In emergency situations codes are not always accessible in electronic systems. The specification of category U14 in the way it is done here will make sure this category and the subcategories are available in every electronic system at any time and that they can be
