

## Shortening or exempting quarantine period for arrivals who have a valid vaccination certificate

- With a valid vaccination certificate, you can **shorten your quarantine period of 14 days at home** or in the place you're staying if you are entering from
  - "undesigned countries/regions", whose travelers are not required to stay at the government-designated accommodation, or
  - "designated countries/regions", whose travelers are required to stay for 3 days at the government-designated accommodation
 and report to the Ministry of Health, Labour, and Welfare (Health Monitoring Center for Overseas Entrants (HCO)) the negative test result (PCR Test or Quantitative Antigen Test) on or after the 10th day after entering Japan.
- With a valid vaccination certificate, you are **exempt from the 3-day stay at the government-designated accommodation** and the test on the 3<sup>rd</sup> day after entering Japan if you are entering from the "designated countries/regions", whose travelers are required to stay for 3 days at the government-designated accommodation. However, you still need to stay at home or in the place you're staying during the designated quarantine period.

The above measures will be applied to those who enter Japan on or after October 1, 2021.

※ You must follow the instructions by the quarantine station or public health office, even if the above requirements are met.

※ The above measures are not applied to children who are not able to get vaccinated because of the age restriction.

【Countries/regions you stayed in】

(1)"undesigned countries/regions": Travelers from this country/region are not required to stay at the government-designated accommodation

(2)"designated countries/regions": Travelers from this country/region are required to stay for 3 days at the government-designated accommodation

● Please submit a copy of the vaccination certificate to the quarantine station.

※ For an electric vaccination certificate, please ask the quarantine officer.

● The vaccination certificate is valid only if it meets the following criteria ① to ⑤.

The certificate must be issued by a public institution in a country or region listed in the attached table.

①

※ For a vaccination certificate issued in Japan, the following certificates or records are valid.

- Vaccination Certificate of COVID-19 issued by the Japanese government or local governments in Japan
- Certificate of vaccination for COVID-19 issued by local governments in Japan
- Record of vaccination for COVID-19 issued by medical institutions in Japan
- Other certificates that are considered equivalent to documents listed above

The following items must be listed in Japanese or English

②

- Name • Date of birth • Vaccine name/manufacturer • Date of vaccination
- Doses of vaccines administered

※ If date of birth is not included in the certificate, other personal identification – e.g., passport number, could be an alternative to confirm the authenticity of the vaccination certificate.

※ If the vaccination certificate is written in a language other than Japanese or English, it will be considered valid if it is accompanied by a Japanese or English translation and the contents can be identified.

The name/manufacturer of the vaccines administered must be one of the following.

③

- COMIRNATY / Pfizer
- Vaxzevria / AstraZeneca
- COVID-19 Vaccine Moderna / Moderna

※ Vaccine name/manufacturer above are those used in Japan.

④

You must be administered at least 2 doses of the vaccines listed in ③

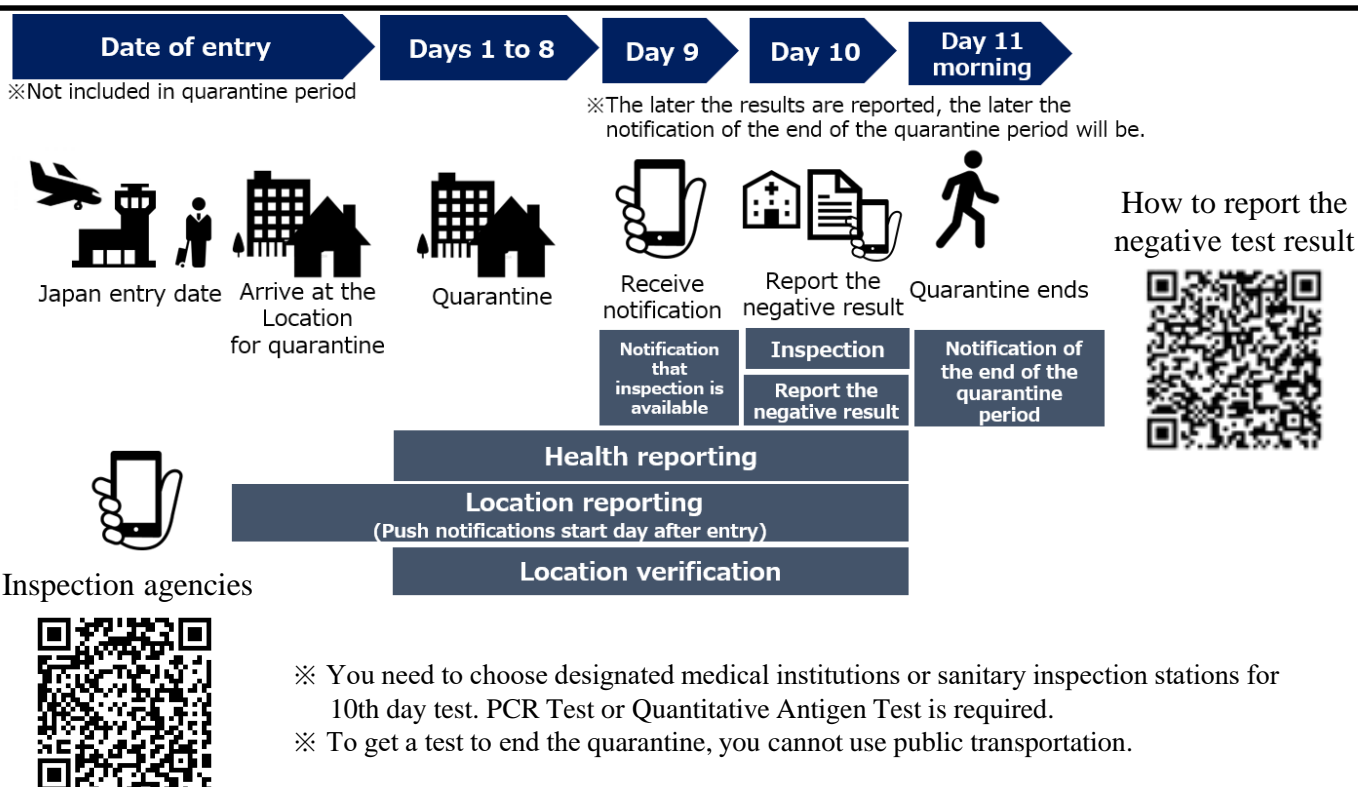

※ If you are administered 2 different types of vaccines, both vaccines must be listed in ③.

⑤

On the date of entry, at least 14 days must have passed since the second dose of the vaccine was administered.

※ The day of the second dose does not count as one of the 14 days.
