

## For parents or guardians of children aged 12 to 15

- ◎ **If your child is to be vaccinated, a parent or guardian must sign his or her name in the signature space on the pre-examination slip.** If you do not want your child to receive the vaccination, please do not write anything in the signature space. **Children will not be vaccinated unless a parent or guardian signs the pre-examination slip.**
  
- ◎ For children of junior high school age and above, and only if the vaccinating medical institution (vaccination venue) approves,\* your child may be vaccinated without being accompanied by a parent or guardian. However, a parent or guardian must first read this guide and must also personally sign the pre-examination slip.  

\*This applies only if you are informed that your child does not need to be accompanied by a parent or guardian.  
Please refer to the guide or confirm at time of booking.
  
- ◎ If your child will not be accompanied by a parent or guardian when receiving the vaccination, **please enter your emergency contact information (a phone number at which a parent or guardian can be contacted at the time of pre-examination or vaccination) in the “Phone number” space on the pre-examination slip.**
  
- ◎ If you have any questions, please first read and consider information from national or local authorities, or check with your family doctor or the municipality where you reside, before making any decisions.
